

## **QUALITY POLICY STATEMENT**

Portsmouth Aviation LTD Dereham is fully committed to providing all customers a comprehensive, effective and high quality service in the field of design, development, post design support and manufacture of packaging, which meets or exceeds the customer requirements and expectations on quality and delivery, thus ensuring customer satisfaction.

As part of this commitment, the application of new and appropriate technologies, training, and awareness to maximise the talents and abilities of all personnel in the most effective and competitive manner to ensure full compliance with all applicable customer, statutory and regulatory requirements and maintain the BS EN ISO9001, BS EN ISO 14001:2015 and the Military Packaging Approval Scheme (MPAS) approvals.

This policy provides the framework for Senior Management to periodically review and set objectives and targets for continual improvement of the Quality Management System's effectiveness by continually seeking to improve both, the service and products offered to customers, primarily by avoiding problems, rather than subsequent detection and correction. This is considered crucial to the company's future success.

A handwritten signature in blue ink, appearing to read 'S Escott', with a small dot at the end.

Mr S Escott  
Managing Director
